About

Where possibilities come together.

At **Livexpert Technologies**, we believe every great organization is powered by people, purpose, and the ability to work as one.

KIBO360 is our vision of a connected digital ecosystem, where technology brings together teams, processes, and information to create smarter, simpler, and more meaningful ways of working.

Designed for modern organizations, **KIBO360** seamlessly connects operations, customer relationships, finance, inventory, healthcare solutions, and industry-specific applications into one unified experience.

From everyday tasks to strategic decisions, every workflow is built to move effortlessly—giving people the freedom to focus on what truly matters.

Whether you're growing a business, transforming an industry, or preparing for what's next, **KIBO360** grows with you—bringing clarity, connection, and confidence to every step of your journey.

One Platform. Endless Possibilities.

Accurate. Integrated. Efficient.

Advanced LIS Features

01

Automated Sample Management

Streamlines sample handling from collection to disposal, reducing errors and processing time.

02

Instrument Integration

Seamlessly connects with lab instruments for bi-directional data flow and reduced manual input.

03

Customizable Workflow Automation

Adapts to your lab processes to ensure efficiency, consistency, and complete traceability.

04

Real-Time Data Analytics

Provides actionable insights through dashboards and reports for quick decision-making and resource optimization.

05

Regulatory Compliance Management

Ensures adherence to NABL, ISO, CAP and other regulatory standards with automated compliance tools.

06

EHR Integration

Facilitates seamless data sharing with EHR systems and healthcare providers for better patient outcomes.
