

Hospital Management Software

KIBO360 is an AI-powered, cloud-native platform that unifies healthcare operations and enterprise functions for smarter, faster and better outcomes.

AI Powered

Secure

Cloud Based

KIBO360 PLATFORM MODULES

1. PATIENT CARE

Enhance patient experience from first touch to follow-up.

- ✓ Patient Registration
- ✓ Appointment Scheduling
- ✓ Queue & Token Management
- ✓ Patient Portal
- ✓ Insurance Verification

2. CLINICAL OPERATIONS

Streamline clinical workflows and improve care delivery.

- ✓ OPD & IPD Management
- ✓ EMR / EHR
- ✓ Nursing & Care Plans
- ✓ OT, ICU & Wards
- ✓ Discharge & Follow-up

3. DIAGNOSTICS & PHARMACY

Integrated diagnostics and pharmacy management.

- ✓ Laboratory Information System
- ✓ Radiology & Imaging
- ✓ Pharmacy & Dispensing
- ✓ Inventory & Stock Control
- ✓ Batch & Expiry Management

4. FINANCE & REVENUE

Optimize revenue cycle and financial control.

- ✓ Smart Billing & Invoicing
- ✓ TPA / Insurance Claims
- ✓ Collections & Receivables
- ✓ Revenue Cycle Management
- ✓ Financial Analytics

5. HR & ENTERPRISE

Empower your workforce and enterprise operations.

- ✓ HR & Payroll Management
- ✓ Attendance & Shifts
- ✓ Leave & Time Off
- ✓ Asset Management
- ✓ Procurement & Supply Chain

6. AI & ANALYTICS

Make smarter decisions with real-time insights.

- ✓ AI Chatbot & Voice AI
- ✓ Predictive Analytics
- ✓ Real-time Dashboards
- ✓ Custom Reports
- ✓ Executive Insights

CLOUD NATIVE

Scalable, reliable and accessible anywhere

SECURE

Enterprise-grade security and data protection

MODULAR

Flexible modules that grow with your business

MULTI-LOCATION

Manage multiple locations from a single platform

MOBILE READY

Access on the go with mobile apps for all users

API READY

Easy integration with third-party systems

Enterprise-Grade ERP Ecosystem

An AI-powered, cloud-native ERP ecosystem designed to bridge clinical excellence with enterprise-grade operations. KIBO360 eliminates legacy software silos by unifying patient care, diagnostics, finance, and human resources into a single, intelligent database.

CAPABILITY & BUSINESS IMPACT MATRIX

STRATEGIC PILLAR	CORE CAPABILITIES	OPERATIONAL IMPACT / ROI
CLINICAL EXCELLENCE Deliver superior care with seamless clinical workflows.	 Patient Portals  Queue & Token Management  EMR / EHR  Nursing  OT, ICU Management  Discharge Management	 Reduces patient wait times, minimizes manual charting, and accelerates discharge.
DIAGNOSTICS & ANCILLARY Optimize diagnostics and pharmacy operations.	 LIS  Radiology  Pharmacy Inventory  Sample Tracking  Batch Management	 Prevents stockouts, automates sample workflows, and ensures fast, accurate report delivery.
ENTERPRISE OPERATIONS Streamline enterprise functions and drive financial control.	 General Ledger (GL)  AP, AR & Cash Management  GST Compliance  Procurement (RFQ, PO)  HR & Payroll  Asset Tracking (AMC)	 Eliminates revenue leakage, automates vendor management, and centralizes multi-location accounting.
COGNITIVE INTELLIGENCE Turn data into decisions with AI-driven insights.	 Voice-to-Text AI  Predictive Analytics  Executive Dashboards  PACS / SMS / API Integrations	 Enables hands-free clinical notes, provides real-time KPI visibility, and alerts on bottlenecks.

**AI POWERED**
Intelligent automation for better outcomes.

**CLOUD NATIVE**
Scalable, reliable and accessible anywhere.

**SECURE & COMPLIANT**
Bank-grade security with role-based access control.

**MODULAR & SCALABLE**
Deploy what you need today, scale effortlessly tomorrow.

**MOBILE READY**
Access critical information on the go.
